

 Informatics and Computer Science	Module Code: <b>16CSCI08I</b> Assessment Title: <b>Project – Phase 2</b> Academic Year: <b>2016-2017</b>
Module Title: <b>Software Project Management</b>	
Module Leader: <b>Prof. Vladimir Geroimenko</b>	Semester: <b>One</b>
Assessment Weight: <b>35% of project mark</b>	Due Date: <b>Thursday 17/11/2016</b>

Each phase manager within a group is required to develop and document a detailed plan for the phase he/she is managing. An integrated plan for the whole project should be done by the whole group to coordinate or deliver activities **if needed.**

Your plan should include the following for the project as a whole, and/ or for each development phase (analysis, design, implementation, testing) as appropriate:

- WBS or PBS (Every team member needs to submit it for their phase)
  - o Each team member has to choose two activities/ products from the implementation stage, and provide an estimation for: activity **size**, **effort** required, **cost** of activity.
  - o Identify the numbers and type of staff required for the two activities/products. Include any special skills or experience that the staff allocated to a task needs to have.

Please note that **you have to** submit your work in the **IEEE or PRINCE2 template**. Fill in the required sections of IEEE, or use the supplied PRINCE2 documents.

**Project Plan Marking Schema**

**Individual Work (35%)**
